What do you need to vacuum? Delfin has a solution.

With over 25 years of innovation in the industrial vacuum system market, we’ve built a diverse product line of more than 140 models and 1,500 configurations to cover any application, dust type and niche industry.

Through listening to the unique needs of each customer, we’ve grown to realize our R&D team can engineer any custom solution with the highest standards for quality and safety.
**Discover how Delfin revolutionizes workplaces in ways beyond cleanliness.**

**Delfin’s most compact, diverse range of industrial vacuums**
- Single & three-phase systems available
- Widest selection of models for collection of solids & liquids
- Designed for easy mobility, flexibility & high performance
- Certified explosion-proof models available

**Industrial single-phase vacuums with high versatility**
- Great for mobile applications and confined spaces
- 3 powerful bypass motors with independent cooling
- The DM3 is the bestselling Delfin vacuum across the widest range of industries
- Many customization options available

**Central vacuum systems**
- Portable & fixed vacuum units with many filtration options
- Pre-separators, hoppers & mobile collection systems available
- Turn key solutions with engineering support from start to finish
- Customizable systems for any industrial environment

**Ultra compact three-phase vacuum cleaners**
- Vertical platform ideal for mobile applications & confined spaces
- Suited for continuous use
- Models available with ATEX certification for combustible dust
- Models available for recovering suspended dust off production lines

**Compressed air-operated vacuum cleaners for continuous use**
- Compact, lightweight & portable
- Patented maintenance-free, multi-jet Venturi suction unit with low air intake
- Flexible solutions for most non-electric environments
- Diverse range of models for collection of solids & liquids

**Oil and chip vacuums for recycling swarf**
- Single & three-phase systems available
- Reverse airflow discharge system
- Compact & portable with oil-proof wheels
- Separation of oil & shavings with sieve grid
- Added coating on filter to shield motor against oil mist
Discover how Delfin revolutionizes workplaces in ways beyond cleanliness.

- Single-phase Class II, Div. 2 models with brushless motors (up to 10,000 hour life expectancy)
- Three-phase models with side-channel blowers for continuous use
- Customizable solutions for any industry

Is combustible dust present in your workplace?

Delfin takes responsibility in providing certified vacuum solutions to help create safer work environments.

NFPA 652-2019 defines a combustible dust as “a finely divided combustible particulate solid that presents a flash fire hazard or explosion hazard when suspended in air or the process-specific oxidizing medium over a range of concentrations.”

### Industrial three-phase vacuums with high versatility

- Most versatile three-phase systems in the Delfin line
- Built for continuous use with large collection capacity
- Great for centralized systems and pneumatic transport
- Certified explosion-proof models available

### Scrap collection units for OEMs and production lines

- Three-phase side-channel blower for continuous recovery of production waste
- Highly customizable for integration into most production machinery
- Geometrically designed to fit without obstructing workspace
- Certified explosion-proof models available

**Certified pneumatic vacuums for combustible dust**

- NFPA compliant in the US
- Patented maintenance-free, multi-jet Venturi suction unit with low air intake
- Antistatic filter, stainless steel chassis & earth grounding as standard

**DirectX**

**DG VL**

Three-phase vacuums for heavy debris, centralized systems and pneumatic transport

- Suited for continuous high volumes of heavy debris
- Auto, semi-auto filter cleaning system or optional reverse jet pulse available
- Easily portable with built-in forklift intakes
- Cyclone filter protector as standard

**DG HD**

**DG ex**

Certified pneumatic vacuums for combustible dust

- ATEX zones 1, 2, 21 & 22
Delfin has tools for every application. Our ergonomic and user-friendly accessories add convenience and effectiveness.

- Antistatic
- Color-Coded
- Overhead
- High Heat
- Oil & Metal Shavings
- Floor Cleaning
- Hand-Held

"Your safety is our focus, one dust particle at a time."
